The Wonder of Amino Acids

Amino acids are the building blocks of life itself. Amino acids only come from protein sources. These amino acids play a vital role in all of the body's important functions including building and replacing muscles, enzymes, hormones, immunoglobulins, and blood cells. However, amino acids can only be utilized if the protein sources can first be digested, then absorbed, then assimilated and finally activated for use at the cellular level.

This "protein utilization process" is especially vital to 'dieters'. When people reduce their calorie intake they usually reduce their protein intake. This often results in a reduction of muscle mass (the body's natural fat-burning furnace). This can lead to a dieter's dilemma, the "yo-yo syndrome".

The AminoCharge Difference

AminoCharge's unique protein formula of four premium protein sources is powered by a breakthrough in "protein utilization technology" - which we've named the "protonic process!" This process, with its select "protonic" ingredients, enhances the entire protein utilization process. This results in more of the amino acids arriving at the cellular level in a form that is highly bioactive. In fact, the Protonic Technology is so

unique that Life Force has applied for a patent. The protonic process, and AminoCharge, can only be purchased through Life Force International.

Suggested Use:

Contents may settle during shipping. Gently shake container before each use for more accurate measuring.

Stand Alone Use: Mix 2 level scoops in 6 oz of water or of your choice of liquid. After thoroughly mixing, add 1/2 teaspoon (2 droppers-full*) of AminoRegulator, and mix again. Consume immediately after mixing.

*Denotes: A dropper-full is one full squeeze of the rubber bulb.

As Part of the TrimWise Health Solution: AminoCharge (with AminoRegulator) is an integral part of our TrimWise Health Solution, which also includes TrueGreens and DreamAway. Please follow the TrimWise instructions for AminoCharge use when taken as part of this program.

As Part of the Cornerstones of Good Health: AminoCharge (with AminoRegulator) is an integral part of our Cornerstones Of Good Health, which also includes OsteoProCare, Body Balance and TrueGreens. Please follow the Cornerstones instructions for AminoCharge use when taken as part of this program.
